Expertise

- ✓ Pro Tools Ultimate – Experienced with multiple setups, plugins and control surfaces including Avid S series and D Command
- ✓ Voice Over / ADR
- ✓ Sound Design and Foley
- ✓ Post Production Management
- ✓ Team Leadership

Ambitions

Looking to utilise my skills and expertise as a freelance Dubbing Mixer to work with Production Companies and Post Houses.

- ✓ Dual Citizen (UK and Ireland) holding EU Citizenship, free to work across Europe
- ✓ Owner of a professional Dubbing Suite and Audio Facility based in Devon, available to work remotely.

About Me

I have almost two decades of professional experience in the broadcast, and creative industries.

My time includes 13 years of employment as a dubbing mixer with a leading independent TV production company, eventually being promoted to Head of Post Production. In my role as dubbing mixer, I've mixed sound for several hundreds of TV shows and have worked with multiple production teams and screen talent.

My work has been broadcasted in the UK and worldwide across networks and streaming platforms such as the BBC, Netflix, Discovery, ITV, Channel 4, Five and Fox. I have also been involved in digital content production, working on the audio post for corporate video, radio advertisements and podcasts for several brands including Tesco, Coca Cola, AXA, Kraft, Lotus, Ella's Kitchen and Bottle Green.

In 2020, I made the jump to the world of freelancing and opened up my own studio based in Devon. In addition, I work in other facilities nationwide and continue to focus on my passion for working in sound for media.

I am highly technical, proficient and take pride in the work I do, but most of all I'm friendly, patient and easy to get along with. Ultimately, I believe in utilising my experience to go above and beyond for my clients, while adding the personal touch.

Experience

Dubbing Mixer & Head of Post Production **01/2008 – 06/2020**
Denham Productions Ltd, Plymouth

Denhams was an independent production company who created award-winning broadcast programs and digital content for leading international broadcasters, media agencies and brands.

Starting in the deep end as a dubbing mixer, I achieved promotion to the role of Head of Post Production, to lead a team of editors and assistants.

I also ran the Sound Department, with complete accountability for Voice Overs, ADR, Foley, Editing & Mixing for TV, Video and Podcasts. I was involved in the promotion of Post-Production and Dubbing operations, and oversaw IT infrastructure, the design and update of the company's website and ultimately designed and improved the entire post production process that led to an increase in quality and turnover. Top credits include work for BBC, Netflix, Fox, Sky and Discovery, and recording of voice over work with talent including Dawn French, Emelia Fox, Rick Stein and John Torode.

Sound Engineer **09/2005 – 12/2007**
Audel Systems, Plymouth

Worked on the installation and maintenance of various Ministry of Defence set-ups to secure broadcast and music systems in various locations, as well as high-street retail outlets. Served as a Sound Engineer across the UK, with expert fault-finding and rapid repair on site as a combination of IT and electrical engineers. Provided production support in the recording, editing and mixing of audio tracks, and the set-up and disassembly of sound kit.
