Reviews

Ben Baird's sound design is a thing of fretful beauty, seamlessly meshing a barrage of natural effects with Anne Nikitin's creaking, squeaking, screeching score

***Calibre* – Variety June 2018**

.....Fantastic Sound Design, and I know that sounds like the kind of thing that only a film critic would say, but believe me it's the kind of film you watch with your ears and it's a really really fine piece of work

***Lady Macbeth* - Mark Kermode BBC News August 2017**

Precise Sound Design by Ben Baird who creates an elemental orchestra of wind, water, earth and fire that sings throughout the film.

***The Levelling* – The Guardian May 2017**
