Working as a Sound Mixer for over 40 years within several disciplines including, TV Drama, Films and Documentaries I have gained vast experience in working in a high pressured fast-paced environment. It has always been a priority of mine to capture artists' original dialogue, as clean as possible to reduce the need for ADR and enhancing the sincerity of their performances.

I come with a full drama kit including multi track recorder, up to 6 radio mics, 2 radio booms with Sanken shotgun mics, (a playback system at an extra cost). and up to 6 in ear monitoring system for production. All packed into a fully rigged out sound vehicle.
