Professional Profile

Experienced sound assistant with experience of working across TV, Film and Commercials. I possess good technical knowledge of equipment and understanding of the many aspects of working on set. I work extremely well under pressure with a calm demeanour whilst maintaining a positive, can do attitude with absolute professionalism. My ambition is to seek new methods and techniques in order to develop my current skillset, and continue to utilise my experience to sustain the sound department and community.

Additional Information

During my time on the ScreenSkills Leaders of Tomorrow programme I have been able to shadow sound mixers on a number of productions, observing daily best practices whilst also attending location recce's, production meetings and offered various opportunities to mix scene's while being supervised. It has been an invaluable experience and a real pinnacle in my career development.
