As a Sound Designer, I tell stories with sound and bring the director's vision to life. As a freelance sound editor / sound designer located in Switzerland, I'm a teampayer and love to work with others.

Over the last 12 years, I worked on many different projects, including a documentary in Hindi as well as a feature film in Dolby Atmos. Genre films and character-driven dramas are, however, among my favourite projects.

As much as I like spending my days in front of screens, I also love roaming through untouched nature as a Field Recordist, capturing new sounds in the far corners of the [world](#).

## Feature Cinema
