BA Communications

I have over 20 years experience in film and television post-production. In New York, I worked at Pomann Sound Inc. as a Dubbing Mixer, Dialogue Editor and ADR Recordist. I then moved to London, where I was employed for six years at Videasonics working as a Dubbing Mixer, Senior Dialogue Editor, ADR Supervisor, ADR mixer, Foley Editor and Project Manager to name a few.

I now freelance and have worked on many successful films and TV series, and my role within each project is explained overleaf. I have a good working relationship with my clients, and enjoy the day-to-day process of dealing with actors and directors, providing attention to detail when editing and getting the best performance from the actors during ADR. This has led to positive feedback and future work prospects.

I am always looking for new challenges that will test my skills. Together with my list of credentials, I will bring knowledge and experience to your project.
