September 2011 - Present

We Are Audio Ltd: Sound Designer | Dubbing Mixer

In September 2011, I formed We Are Audio with my partner Ben Mason. We Are Audio is an award winning creative audio post-production company, providing sound design, music composition, VO recording, and Dubbing Mixing for TV Broadcast, Film, Branding, Trailers, podcasts, and advertising. In 2021 we completed our brand new studio facilities in central Bristol, which have 3 studios, 1 live room perfect for VO recording, ADR & foley.

October 2007 - August 2017

Freelance: Sound Designer | Dubbing Mixer

Working regularly at Sony Pictures Television as their main audio engineer, and for Disney (Deluxe Media) - sound design, VO recording & mixing promos and trailers. I also worked regularly for Soho Square Studios, and had my own client base producing radio & TV advertising.

January 2002 - October 2007

Natural Sound/Tangent TV

I started as a junior, and worked my way up to assisting and then being one of the main in-house engineers in this busy audio post house.
