

**Sound Recordist / Boom Operator****About me**

I've been working as a Sound Recordist for nearly 10 years on documentaries, corporates and commercials, as well as 2nd unit on TV drama. I'm well trusted by clients and the majority of my work is repeat bookings, I'm now just trying to move away from drama and expand my client list.

Every project has different requirements and your project may not require all of my gear. If you need anything additional I can easily get my hands on most kit through my close network of rental houses and other sound professionals. I'm based in North London.

#### Short

I've also done over 30 shorts, documentary, comedy and drama. For details please see my IMDB page, listed as [Tom Osborn \(II\)](#).

#### Additional Skills

I worked for a few years primarily making videos that teach communication skills, which also involved holding workshops, and as a result my own communication skills are particularly strong, including fluency in Italian and workable French and Spanish. I've done lots of travelling and I am able to easily acclimatise to different environments.
